

Who We Are

Intellijoint Surgical® develops and commercializes surgical navigation solutions for total joint replacements. It is committed to improving patients' lives by providing every surgeon with effective, easy-to-use technology. Intellijoint HIP and Intellijoint KNEE smart navigation applications are both delivered through the Intellijoint Navigation System. It is a fast and easy-to-use, surgeon-controlled system that provides real-time measurements to optimize implant alignment and positioning during total hip and knee replacement surgery to help improve patient outcomes.

Intellijoint Surgical was featured on the Deloitte Technology Fast 50™ Companies list for two consecutive years, ranking both 1st (2020) and 2nd (2019). Intellijoint Surgical also appeared on the Globe and Mail's Canada's Top Growing Companies List (37th, 2020) and the 2019 Startup 50 List of Canada's Top New Growth Companies by Canadian Business and Maclean's (13th, 2019) among other awards over the years.
